KEY FEATURES

- User centric

An innovative reticle adapting to each zoom factor: From a real x1 materializing a red dot, the first focal plane reticle evolves at each stage up to Mildash/Mildot enabling a variety of shooting applications

High ergonomics: Each function is easily accessible for both right and left-handed shooters, and compatible with most of semi-auto precision rifles without interferences.

Designed and qualified for harsh environments: From desert to high mountains, Octo will support operational constraints in extreme environmental conditions.

Mission oriented long batteries autonomy with fast set-up : Low power consumption and easy remplacement of batteries.

- Qualitative

Optimised optical formula: Allowing great clarity, large exit pupil and exceptional eye relief.
